Manager

Talent Acquisition Team

Wipro

Dear sir,

I am writing to express my interest in the MySQL DBA position at Wipro, as advertised. With a strong educational background encompassing Bachelor's and Master's degrees in Accounting and Information Systems, coupled with my progress towards Chartered Accountancy qualification, I bring a unique blend of skills that align well with the requirements of this role.

During my academic pursuits, I developed a solid foundation in accounting principles and information systems management, which have equipped me with a structured and analytical approach to problem-solving.

I am particularly drawn to this opportunity at Wipro because of my passion for database management and optimization. My experience with MySQL spans recent versions, and I have a proven track record of provisioning MySQL instances in both clustered and non-clustered configurations, ensuring optimal performance, security, and availability. Moreover, I possess expertise in MySQL's underlying storage engines, replication configurations, backup and restoration procedures, database migration, and version upgrades.

In addition to my MySQL proficiency, I am adept at SQL statement writing and optimization, as well as MySQL's event scheduler functionality. I have experience in MySQL database auditing and Transparent Data Encryption (TDE), further enhancing database security measures. Moreover, I am familiar with various replication architectures, including Master-Slave, Master-Master, Chain Replication, Group Replication, and Galera Cluster.

Furthermore, my exposure to diverse databases such as PostgreSQL, MongoDB, Oracle, MS-SQL, and AWS provides me with a broader perspective on database management, enabling me to adapt quickly to evolving technological landscapes.

I am confident that my academic background, professional experience, and ongoing commitment to learning align seamlessly with the MySQL DBA role at Wipro. I am eager to bring my skills and expertise to your esteemed team and contribute to the continued success and growth of your organization.

Thank you for considering my application. I look forward to the opportunity to discuss how my qualifications and experiences can benefit Wipro's database management initiatives in more detail.

Warm regards,
Saklayen Ahmed

Annexure A

Comprehensive Overview of Roles and Responsibilities at Deloitte as an Audit Senior

IT Audit

Brac

- In my role in IT audit, I meticulously assessed and managed user access privileges, ensuring secure and compliant systems. Testing the data integrity including accuracy and completeness of about 30 million rows of datasets.
- Additionally, I conducted thorough audits on direct data access, system settings, application changes, database changes, system software changes, data conversion, network security, data backup procedures, and job scheduling, ensuring the integrity and confidentiality of critical IT infrastructure.

Statutory Audit

Epic Garments Company Limited

- Leveraged Omnia audit software to spearhead comprehensive financial statutory audits. Extracted and analyzed journal entries and the massive ACDOCA dataset (9 million rows) with expertise, ensuring financial statement accuracy. Identified data inconsistencies and delivered concise audit reports with actionable recommendations.
- Omnia's robust functionalities empower the delivery of insightful and precise statutory audit reports. My expertise ensures these reports are consistently delivered with clarity and accuracy, streamlining the entire statutory audit reporting process.

MetLife Insurance Bangladesh

- Conducted targeted financial audits for an insurance company, specializing in Agents' Commission, Surrender Value, and Investments.
- Employed advanced data analysis for Journal dump to ensure transaction accuracy.

United Finance Limited

- Developed and implemented customized Excel solutions for meticulous data analysis, including journal entry testing, during financial audits. These solutions enabled efficient and accurate extraction of insights from complex datasets exceeding 20 million rows. Additionally, leveraged expertise in Python for advanced data manipulation and analysis.
- Ensuring necessary provisions and overseeing the automatic charging of interest income through system enhancements for accurate and efficient financial transactions.

Berger Becker Bangladesh Limited

- Spearheaded comprehensive financial audits using Levvia, a leading audit software platform. Streamlined data extraction from SAP S4HANA and leveraged customized Python and Excel solutions for enhanced efficiency and accuracy in subsequent analysis and testing and conducted deep dives into massive datasets exceeding 5 million rows.
- My expertise extends to an in-depth understanding of key components process of SAP S4HANA such as Product Cost Estimation, Purchase Info Record, Inventory Movements and how moving average prices are calculated.
