Manager

Talent Acquisition Team

Turing.com

Dhaka, Bangladesh

Dear sir,

I am writing to express my enthusiastic interest in the Data Scientist & Analyst position at Turing, as advertised. With a Bachelor's/Master's degree in Accounting and Information Systems and over three years of hands-on experience in data science, I am confident in my ability to contribute effectively to your ambitious team dedicated to advancing AI technology.

Throughout my career, I have honed my skills in Python and R programming, utilizing it to tackle complex issues and extract valuable insights from diverse datasets. My proficiency in Jupyter notebooks and R Studio enables me to clearly express reasoning and logic while ensuring efficient collaboration with researchers to achieve organizational objectives. Moreover, my track record of fixing bugs, creating thorough documentation, and effectively communicating findings has consistently contributed to the success of various projects.

I am passionate about leveraging data analysis skills to address critical business queries and drive innovation in AI solutions. My experience working with datasets from reputable sources for Financial and IT audit purposes equipped me with the ability to draw meaningful conclusions and translate them into actionable insights. Additionally, my familiarity with SQL and related technologies enhances my capabilities in data manipulation and management.

What truly sets me apart is my strong communication abilities and business acumen, which enable me to collaborate effectively with stakeholders and researchers alike. I possess a keen eye for detail, coupled with exceptional problem-solving and analytical skills, allowing me to navigate complex challenges and deliver impactful solutions.

I am excited about the opportunity to join at Turing and contribute to pushing the frontiers of AI technology. I am confident that my skills and experiences align well with the job requirements, and I am eager to bring my unique perspective to your dynamic team.

Thank you for considering my application. I am looking forward to the possibility of discussing how my background, skills, and passion can contribute to the continued success of Turing.

Warmest regards,
Saklayen Ahmed

Comprehensive Overview of Roles and Responsibilities at Deloitte as an Audit Senior

IT Audit

Brac

- In my role in IT audit, I meticulously assessed and managed user access privileges, ensuring secure and compliant systems. Testing the data integrity including accuracy and completeness of about 30 million rows of datasets.
- Additionally, I conducted thorough audits on direct data access, system settings, application changes, database changes, system software changes, data conversion, network security, data backup procedures, and job scheduling, ensuring the integrity and confidentiality of critical IT infrastructure.

Statutory Audit

Epic Garments Company Limited

- Leveraged Omnia audit software to spearhead comprehensive financial statutory audits. Extracted and analyzed journal entries and the massive ACDOCA dataset (9 million rows) with expertise, ensuring financial statement accuracy. Identified data inconsistencies and delivered concise audit reports with actionable recommendations.
- Omnia's robust functionalities empower the delivery of insightful and precise statutory audit reports. My expertise ensures these reports are consistently delivered with clarity and accuracy, streamlining the entire statutory audit reporting process.

MetLife Insurance Bangladesh

- Conducted targeted financial audits for an insurance company, specializing in Agents' Commission, Surrender Value, and Investments.
- Employed advanced data analysis for Journal dump to ensure transaction accuracy.

United Finance Limited

- Developed and implemented customized Excel solutions for meticulous data analysis, including journal entry testing, during financial audits. These solutions enabled efficient and accurate extraction of insights from complex datasets exceeding 20 million rows. Additionally, leveraged expertise in Python for advanced data manipulation and analysis.
- Ensuring necessary provisions and overseeing the automatic charging of interest income through system enhancements for accurate and efficient financial transactions.

Berger Becker Bangladesh Limited

- Spearheaded comprehensive financial audits using Levvia, a leading audit software platform. Streamlined data extraction from SAP S4HANA and leveraged customized Python and Excel solutions for enhanced efficiency and accuracy in subsequent analysis and testing and conducted deep dives into massive datasets exceeding 5 million rows.
- My expertise extends to an in-depth understanding of key components process of SAP S4HANA such as Product Cost Estimation, Purchase Info Record, Inventory Movements and how moving average prices are calculated.
