<p>19.06.2018 and it was found that the concern NGO receipt Tk. 4000.00 for installation of Simple Stand post (with hand pump and storage) & Tk. 7000.00 for Complex Stand post (Including hand pump, 2100 liters storage and washing platform 100 square feet) from users .</p> <p>✓ As per project objectives, TAPP, Contract agreement and donor agreement there were no provision to receipt any cash from LIC. It was free for LIC (Low Income Community) & donor provide the fund as grant money for low income community. As a result the authority of NGO was taken undue benefit from LIC.</p> <p>✓ On detail scrutiny it was found that some stand post hand pump installation for single family, number of user 3-4 person and inside of the residence which is beyond the project objectives. As a result personal benefit was given to the some person instead of LIC.</p> <p>✓ As per project objectives it was mentioned that to improve the living standard of the low income communities of Dhaka city.</p> <p>✓ Name of the user & details are shown in annexure- "B"</p> <p>✓ Engr. Quamrun Naher Laily was the project Director during the period of transaction.</p>	<p>Additionally NGOs provided a list of signed copy from whom they collected cost sharing from LICs along with other necessary proofs which are attached herewith.</p> <p>They also inform that Development partners previously included sustainability WASH fund condition as of community contribution in their previous projects so that CBO/community can spend the cost sharing in operation and maintenance for the future renovation of infrastructures in LIC areas.</p> <p>From such practices, NGOs/contractors under EU-AFD funded LIC projects have also tried approaching the target communities through CBOs to contribute financially before construction start for the future sustainability purpose and towards built ownership of the infrastructures. Generally what NGOs did in this project is they collected cost sharing money from the community people, didn't spend those for development or organizational purpose rather NGOs had deposited the poor people's cost sharing money to the central LIC account of Dhaka WASA & remaining reserved so that only community can use the fund when repairing is needed. The signatories of the bank account are one from CPCR Division of DWASA, one from DSK & another one from the concern CBO.</p>

Again we confirm that the community contribution/cost sharing issue on construction works is not part or provisioned in this respective LIC project under Dhaka WASA.

Recommended to dispose the audit objection.

It is to be mentioned that there were seven Lots under the LIC project of Dhaka WASA, and except Lot-6 and Lot 8, other Lots such as Lot-1, 2, 3, 4 & 7 collected cost sharing/contribution money as WASH fund from the LICs and deposited to LIC central bank account. NGOs performed this non provisioned activity without concern of PMU.

Since this is not part of this project, and NGOs collected money based on their normal collection procedure WASH fund and collected money remains unspent in the LIC central bank account.

A copy of depositing collected money by the NGOs to the LIC central bank account are attached herewith.

So I am requesting to dispose the audit objection.
