Movement Types

(Configuration)

SAP S/4HANA Sourcing and Procurement

Inventory Management and Physical Inventory

- Movement Types

- SAP movement type is a three-character key which differentiates various material movements, e.g. Goods Receipt, Goods Issue or Transfer Posting, Vendor Return, Cost Center Issue, Customer Issue, and so on

- Movement types control important functions in Inventory management such as Automatic account determination

- It also determines which stock or consumption accounts are updated in Financial accounting

- Display IMG -> Materials Management -> Inventory Management and Physical Inventory -> **Movement Types:**
  - Record Reason for Goods Movements - **T-code: OMBS**
  - Copy, Change Movement Types - **T-code: OMJJ**
